ORGANIZED BY

# INTRODUCTION

We have chosen Bilbao as the next Spannabis destination for several reasons.

First of all, the Basque cannabis community is one of the most important in the country and the cannabis movement is widespread throughout the autonomous community of the Basque Country.

The Basque Country is probably the most permissive territory with regard to cannabis and where policies on our friend plant have advanced the most.

On the other hand, Bilbao is the largest city in the Basque Country, one of the richest regions in southern Europe. Its Gross Domestic Product (GDP) is the second highest in Spain, only surpassed by Madrid. It is also the second most densely populated autonomous community.

Last but not least, Bilbao has an excellent transport infrastructure, including Bilbao Airport, which connects the city to national and international destinations.

# BILBAO

An international benchmark for urban transformation. The profound change from industrial city to service and cosmopolitan city has been recognised as "Best European City" or "Capital of Design" of the UNESCO creative network.

International connections. Airport 10km from the center. Hotels within a maximum radius of 2.5km. Convenient and easy internal mobility. High technological development. Renowned gastronomic territory. Proximity to beaches and nature reserves.

## Bilbao International Airport

**24** airline companies

**10** minutes from the city

**HUBS** international connections

# THE VENUE

## BEC!

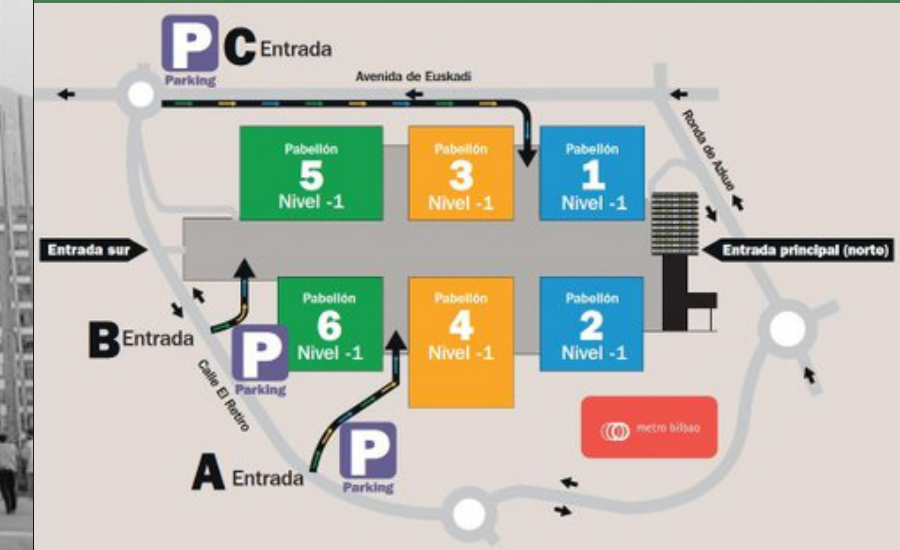

BEC! is an important economic and social driving force in Greater Bilbao. A versatile, practical and innovative space opened in 2004, which has made it possible to hold major events and musical shows.

## CONNECTIONS

BEC! is strategically connected through Bilbao International Airport, the Cantabrian Sea with Bilbao-Portsmouth connection and international cruise ship docking, and with an extensive rail and road network.

## NUMBERS

The south entrance is for loading and unloading.  
All spaces are adapted for people with reduced mobility.

# EXPOSITION

## PAVILION 1

10.000 sqm of exhibition space with the best facilities.  
2.000 sqm of outdoor area to enjoy foodtrucks, chillout and stage..

20, 21, 22 SEPTEMBER 2024

# STANDS MAP

ACCESS THE MAP  
ONLINE

Have an area dedicated to CBD and hemp at the trade show is a unique opportunity for those looking to discover the benefits of these natural products. Professionals and visitors can explore a wide variety of high quality products, from oils and creams to edibles and vape products.

Having a space like this not only promotes education and knowledge about these products, but also fosters a safe environment where consumers can obtain accurate and reliable information from expert suppliers.

# INTERNATIONAL CANNABIS FORUM

In September 2024, the ninth edition of the World Cannabis Conference will be held together with Spannabis. This new edition will be featured by scientific, medical and political personalities; as well as relevant agents of the cannabis sector.

The World Cannabis Conference have become a benchmark event thanks to the transmission of advances and efforts carried out in the field of cannabis. Through thematic blocks in forum format, and also specific conferences, we intend to explore into the different dimensions of this controversial plant.

**"A space where to convey the value and authenticity of products that come from hemp or contain CBD"**

Industrial hemp is one of the most versatile natural resources the earth can provide us with. In addition to the very positive ecological impact it can generate on the environment, its multifunctionality is undeniable as it is a plant from which more than 30,000 different consumer products can be derived. From textiles or food to medicinal or cosmetic products, including bio-construction or biofuel, the possibilities of use that the Cannabis sativa L. plant offers us are almost unlimited.

In this context, and in an attempt to promote the different facets that the cannabis plant offers us beyond "marijuana" itself, the organisation of Spannabis Bilbao offers companies in the industrial hemp sector a showroom where they can showcase their products or production processes.

Spannabis performances are characterized by joining all kinds of styles related to our friend plant: reggae, dub, dancehall, hip hop, soul, jazz, funk, afrobeats, drum & bass, dubwise, neurofunk, electronic music, tropical rhythms and black music, among many others, they come together on the stage, full of creativity and rhythm.

During the next edition of Spannabis, we will live one of the most wanted reunions with music and dance in an unbeatable environment.

# GET INVOLVED!

Trade shows generate more potential sales in a week than any other marketing tool.

They are one of the most effective ways to establish and maintain relationships with our customers.

In an increasingly digital age, they are the only place where buyers, sellers and specifiers, product and company leaders physically come together - a powerful force for business.
